

GET CONNECTED
ON TODAY'S FLIGHT

MOBILE NETWORK

1- ENABLE YOUR SMARTPHONE

Once the aircraft has reached cruising altitude, the overhead sign turns off and the cabin crew notifies you with a specific message. Switch on your smartphone or make sure “**Airplane Mode**” is off

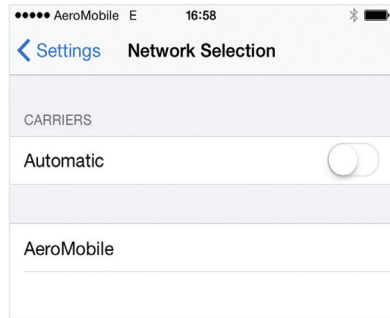

2- CONNECT

Your phone connects automatically to the network.

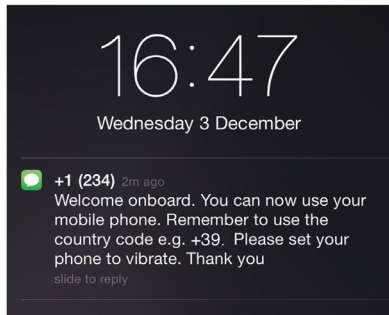

If it doesn't, ensure roaming data is enabled and manually select **AeroMobile** in your phone settings.

Service availability depends on the agreement between your provider and the supplier of the in-flight roaming service (AeroMobile)

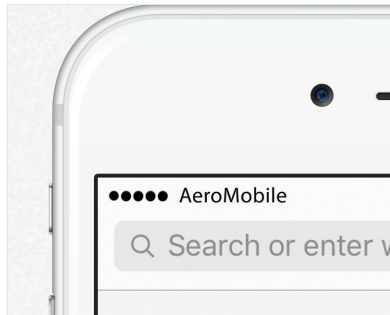

3 - WELCOME

When you're connected to the network you'll receive a welcome message.

4 - USE YOUR PHONE

You can now call, SMS, email, post on your favourite social networks (Twitter, Facebook, etc.) and surf the internet.

WI-FI

1 - CONNECT

Once the aircraft has reached cruising altitude, the overhead sign turns off and the cabin crew notifies you with a specific message. Switch on your Wi-Fi enabled device (such as laptop, tablet or smartphone) or make sure “Airplane Mode” is off and connect to the Alitalia Wi-Fi Network.

2 - GET WI-FI

Launch or refresh the browser to connect to the Alitalia portal and click the “**Get Wi-Fi**” button if you wish to purchase a session.

3 - PURCHASE A SESSION

Buy the tariff package that best suits your needs, with your credit card or use a voucher.

4 - SURF

Enter username and password and you're free to post on your favourite social networks (Twitter, Facebook, etc.), email and surf the internet.

Please note: you need to remember your username and password if you wish to change devices.

HOW MUCH DOES IT COST?

MOBILE

International roaming charges applied depend on the agreement between your provider and the supplier of the in-flight roaming service (AeroMobile): the costs are similar to international roaming tariffs.

For more information on roaming prices please check with your mobile operator.

WI-FI

1h 24Mb:
Euro 9.6

3h 60 Mb:
Euro 21

Please note: In order to ensure that the data included in your Wi-Fi session is not used up quickly, please ensure that the automatic updates & backup are disabled on your device
